OSA-2075-3-73

15 March 1973

MEMORANDUM FOR: CAMPES Users

SUBJECT: Instructions for Use of the Mission Plan Generator

1. Attached are instructions for use of the mission plan generator creation sheets, weather input creation sheets and MPP setup cards. They are intended to serve as guidelines for mission planners so they may accurately take full advantage of the Computer-Aided Mission Planning and Evaluation System. These instructions will be revised by the Advanced Applications and Planning Staff and by the Office of Computer Services programmers as the program continues its development. Currency of these instructions is a keynote in the accessibility of the various options available in this program.

2. These instructions cover, in detail, the basic requirements and capabilities of the Mission Plan Program. Close liaison between AAPS and OCS is essential to take full advantage of all capabilities available through use of CAMPES.

3. It will be necessary for CAMPES users, in coordination with AAPS personnel, to continually maintain the various performance charts, vehicle characteristics, doctrine, tactics, and other operational criteria, to assure these computer input data are reflecting the accuracy necessary for mission success.
